

21st March 2020

Dear League Supporters,

We have all been on a roller coaster the last week or two with the situation regarding coronavirus changing daily.

When we put out the information regarding a virtual League event we did not know that four days later all gyms would be required to close, and from today all opportunity to film would be lost. This gave only a small window to get filming done.

We also know that many clubs thought this a great idea and did film immediately we made the announcement. This gave their competitors a boost following the cancellation of all other events.

So we hope we have come up with a compromise to satisfy all of our League competitors.

Our latest idea is to run a free Virtual League Test Event. Every club that entered Burgess Hill will have their entry refunded. The entry portal will re open to all clubs and any club that did undertake filming of routines and passes is asked to enter the test event free of charge. This also includes clubs that didn't enter Burgess Hill, but may have done some filming anyway.

This event will enable us to stress test the system.

We have already devised a remote judging process where routines can be judged in the comfort of judges homes and in isolation online, and are currently working on the best method to enter the event and upload routines and passes.

Thanks to the League Events Team who have been working hard to make this possible.

For those that enter, they will be judged, results will be published, routines put on line and this will constitute our very first virtual competition.

What we can't now follow through on in the name of fairness is the allocation of League points or medals for the event. As the event is free, we ask that clubs might honour their competitors in some way if they place in the top three in their event.

If the test event is successful, we may have one in the future for all clubs to enter as part of our provision. It would provide a possibility to have an event that incurs no cost to you, other than a modest entry fee with all travel and accommodation costs eliminated.

We hope you will agree that we have found a compromise and hope that your competitors who did manage to film some footage and enter will be excited to be making League history.

We will shortly give you information on how to enter the test event.

Thank you for your continued support.
